

UPDATED INFORMATIVE DIGEST  
22 CALIFORNIA CODE OF REGULATIONS

SECTION 12204. SAFE USE DETERMINATION  
(RENUMBERED FROM SECTION 12104)

Businesses need to know whether they are in compliance with the provisions of the Act relative to the specific discharge or exposure circumstances of their business. The safe use determination process is a voluntary mechanism by which businesses can obtain such guidance. The proposed amendments to Section 12204 are further modified to explain circumstances under which a safe use determination will not be issued. The post-hearing modifications also addressed the limits of the reference to Evidence Code Section 1040 as it relates to “Official Information” for purposes of the Act.
